INFORMATION DISCLOSURE STATEMENT

US 6,623,750 B1 discloses, in the Abstract, "Enzyme feed supplements containing fungal cellulose produced by *Trichoderma viride* are specially adapted for increasing protein digestability of dairy cow and cattle feed."

The Hutcheson article is discussed in the Background of the Present Invention. I submitted a copy of the print out of the article with my submission of the present patent application. I could not relocate the article on the Internet.
